

What some of our Clients have to say:

"Jobs.co.za has assisted us in building a new Job Board and Recruitment Management Suite in order to aid our company with its online recruitment strategies. From the initial phases of understanding our needs, to proposing solutions, all the way through to rolling out our projects Jobs.co.za is a very flexible and customer support focused company. In addition they have always been ready to face and overcome any challenges we may throw at them. The relationship between our companies is mutually beneficial and we are pleased to have them as our online recruitment partners." **Human Communications.**

"Jobs.co.za has been a real asset to our business. In addition, their service has been impeccable with every single member of staff we've encountered being absolutely lovely, courteous, efficient and above all personable. We extend our gratitude to the entire Jobs.co.za with special mention to our account managers, Kerry & Hané." **Aspire Recruitment**

"As a recruitment agency we continuously advertise our job opportunities on Jobs.co.za as we find the site very user friendly. In comparison to other job boards, we find Jobs.co.za to be very organised, with impeccable customer service. Our favourite feature is the option to save multiple job templates. The search is also very easy to use and delivers relevant search results." **Gemini Human Resource Practice**

"We were very impressed by Jobs.co.za's kind offer to load our job specs onto the system on our behalf. We wish that all our service providers could demonstrate the same level of commitment to their customers as Jobs.co.za does." **Adecco**

"We find that the site is continuously growing from strength to strength and on the whole, the quality of CV's that we receive is getting better and better each day." **Canei**

"We decided to join Jobs.co.za mainly because of their ability to post our job ads onto external website to attract the passive audience. We also found the site very affordable in comparison to other service providers. While other service providers deliver volume responses, we really enjoy the online applicant screening tools offered by Jobs.co.za which delivers a quality CV in a user-friendly format – short personal description, answers to our screening questions and then the full CV attached. We also find that Jobs.co.za offers excellent customer support and is always very accommodating by consistently providing a friendly service. Not to mention the regular industry news and updates that they send us." **Specialised People & Business Search.**

What some of our Job Seekers have to say:

"Jobs.co.za is one of the pioneers in giving South Africans the opportunity in making themselves better people."

"Your website is very easy to use in comparison to other job sites. I will most definitely recommend it to other Job Seekers."

"I've studied the advice you have given in your Job Seeker Workshop and have applied some of your tips such as shamelessly 'selling myself' and being honest with myself and the recruiter. Last night I applied for a vacancy using your suggestions and I just got a call back and have confirmed my interview for this morning after struggling for so long. How will I ever be able to thank you? "
